EXAMINER'S COMMENT AND STATEMENT OF REASONS FOR ALLOWANCE

Comment on Submissions

1. This action is responsive to submission, including the preliminary amendment, filed 2 April 2004.

Specification

2. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Allowable Subject Matter

3. Claims 38-39 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 38 and 39, the prior art does not disclose or fairly suggest an array substrate for x-ray imaging or a method of fabricating such substrate, as specifically claimed, including among other limitations at least a switching region including a TFT with the associated electrodes; and further including at least first, second, and third passivation layers arranged with associated electrodes and contact holes formed thereon and therebetween as specifically recited. The examiner notes that this arrangement is distinguishable from other prior art such as, Zhong *et al.* (US 6,060,714) at Figs. 1-2 for example and/or Ikeda *et al.* (US 6,403,965) at Figs. 1-2.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
